Inconsistencies like these are not often met with. Were they manifested by a man who was not a candidate for office, charity would compel as to a lenient conclusion. We might attribute to him a weakness of judgment, or a strength of newly created prejudice that would account for the strangeness of his concuet. We read that men are sometimes "given over to a strong delinion. re as way for a steady importation, to the equal advantage of cotton and Christianity!

It is, however, by no means certain that South Carolina will permit the Federal Government to remove the negroes in question.

The Charleston Mercury, speaking in tehalf of her sover-ignity, quotes the law passed by her Legislature in 1835, which asserts "jurisdiction over all importations what increases of the country of tion over all importations whatsoever of persons of color," and reminds the small fraction sons of color," and reminds the small fraction of mankind outside of her limits, that that law " was made with a full knowledge and in the face of the United States law of 1819." The Mercury does not propose, however, that South Carolina should assert her full rights in the case, as it stands at present. Here is the contingency by which she will be roused to action: "Should the Abolitionisis seek to " use the law of 1819 against us or to molest mes " given over to a strong delus that they may believe a lie and be "But this terrible calamity is visited only upon those who have long persisted in corrupt sentiments and evil practices—those only who have been for Lecompton and Dred Scott from the beginning. But what, indeed, could the most rabid Abolitionists in the land do that the Federal Government has not already done to endanger the "peculiar institution?" It has, shrough its agent, thrust thes negro s upon the soil of South Carolina apparently for no other object than to invite the world to institute a comparison between the morality of the foreign and domestic slave trade; and while the world can hardly make a choice between the two kinds of traffic, it takes the victims of the latter under its august protection, and heard of his troubies, and, like a good Samari-tan, hastened to his relief.

We silk now what a disinterested patriot

nothing for his own promotion! He saves

It harts him terribly to have an injury done

Mr. Douglas can not therefore assert that this clause was inserted "by occident," as he has already said the first was omitted. Our commerce now floats on every see, and latury folfs the nation in its easy and seductive embrace. A change perhaps consequent upon this is. the political sentiment of the people is scarcely less striking. Our forefather's policy of prohibiting the introduction of slavery into free territory is now claimed to be a violation of the very constitution they made and gave us. The sentiments of the great declaration for which they periled "their lives, their fortunes and their sacred honot," are now seoffed at and pronounced retetrical fourishes. The investigation in relation to mule contracts that has been for some time in progress before a Board of Commissioners at Leavenworth is likely to turn out something worse than a farce. A letter to the St. Louis Democraf anys "the Beard is not swern, and it has no power to swear the witnesses. It merely takes the statements of Tom, Dick and Harry in the case, when the official actions of an officer are concerned. This is the kind of a Board ordered when there are over \$150,000 at Stake."

When near his end he was taken to Maracaibo, and as he was landed on the beach in the sun, surrounded with soldiers, with drams and bugles sounding, he died in his chair, with his two sons ellinging to him. The government ordered those present to report that he died in his bed, lest his adherents should be stimulated to venezance.

Legat Decision.—The Supreme Court of Pennaylvania, in the case of the Pennaylvania, in the case of the Pennaylvania in the case of the Pennaylvania and that the Railway Company was liable for damages arising from the obstruction of a public highway at a "grossing" by their locomotives, cars, etc. In this instance the plaintiff had sent his son, a boy nine years of age, to lown for to-bacco. On reaching the turopike, he attempted to creep under the defendants' cars, which had just arrived and were standing across it. The

The Ohio Stateman thinking to say some-thing very severe of Mr. Corwin, declares that "he is as good a Democrat as James Buchan-an." He's no doubt a hundred times better - A Berlin letter says :

— The last words of the Rev, Eleazer Williams were "Lord Jesus Christ, have mercy on me and receive my spirit." He was buried on the following day with Masoute benors, and the services of the Episcopal Church. He died in poverty, and a correspondent of the Journal of Commerce asys.

(Correspondence of the St. Louis Democrat.)

I had not gone far in my rambles about the city before I was brought to a stand by a discovery. On both sides of the street, projecting from the center of almost every window of the dwelling houses, each at an angle of 45 degrees with the window, were placed two mirrors of about a foot square, each in a vertical position, one facing up the street and the other down. I immediately set my Yankee ingenuity to work to "guess" their object, and was not long in discovering in these mirrors plain indicotions that here, in this great swamp of Europe, woman's curiestive is the same as among verdant hills and more goulal climes.

There was also asother queer looking glass arrangement which, for a long time, puzzled me. The puzzle grew out of the peculiar positions and various angles at which these mirrors were placed. I was about giving it up, when, observing that their inclination was always decidedly towards the front door, I saw the whole secret as clear as light. The good lady of the house, hearing the door bell ring, darts a look into the curious mirror, and thereby knows in a moment who stands at his door. Of course when the door servant comes in her ladyship can at once say whether she is at home or set. In all the cities of Holland nearly every dwelling house has projecting from its windows from one to ten of these ugly looking mirrors.
